

Cold, Blame

I can't stand up from all this pain
And everyone loves a sickened game
And all these pills make my uncle rain
Sun has burned up and gone away
Well everytime you used to fall
(Blame me again)
Everyone
(Blame me again)
Makes you sick
(Blame me again)
You're a shame
(Blame me again)
Trapped inside, hailed a common name
And everyone loves a sickened game
Always drunk when I feel betrayed
Sun has burned up, gone away
Well everytime you used to fall
(Blame me again)
Everyone
(Blame me again)
Makes you sick
(Blame me again)
You're a shame
(Blame me again)
[-spoken words-]
I said can you come from this place
I said Superman, he's not even here
Can you come from this love
I said Superman, he's not human here
Can you come from this world
I said Superman, he's not even here
Can you come from this love
I said Superman, he's not human here
Calm him down, calm him down
Calm him down, calm him down
Coming down, coming down
Coming down, coming down
