

# Cold Chisel, Way Down

Somebody tell me  
Where did I go wrong  
Oh, what a fool am I  
Sometimes  
You can feel you don

't belong  
Wanna die

Way down  
I've been all the way  
And I know the reason why  
Way down  
Is the price I paid  
Oh but now I realise

Somebody tell me  
That you understand  
Oh that I'm not alone  
Sometimes  
When you need a helpin? hand  
Oh I know

Way down  
I've been all the way  
And I know the reason why  
Way down  
Is the price I paid  
Oh but now I see a light  
Way down

Way down  
I've been all the way  
And I know the reason why  
Way down  
Is the price I paid  
Oh but now I realise

Way down  
I've been all the way  
And I know the reason why  
Way down  
Is the price I paid  
I don't wanna go no more  
Way down
