

Cold, She Said

I'll be here alone
Bury everything around me
Her destinations unknown
I can't believe how she drowns me
Well I won't deny, it's all the
Little things she said

All alone
Searched the world until she found me
Her destinations unknown
I can't believe how she drowns me

Well I won't deny, it's all the
Little things she said

All this talkin'
Where's it goin'
Take the needle
Rewind the show
