

# Cold, She Said

I'll be here alone  
Bury everything around me  
Her destinations unknown  
I can't believe how she drowns me  
Well I won't deny, it's all the  
Little things she said

All alone  
Searched the world until she found me  
Her destinations unknown  
I can't believe how she drowns me

Well I won't deny, it's all the  
Little things she said

All this talkin'  
Where's it goin'  
Take the needle  
Rewind the show
