

# Coldplay, Moses

Come on now, don't you want to see?  
This thing that's happening to me  
Like Moses has power over sea  
So you've got power over me  
Come on now, don't you want to know?  
You're a refuge, somewhere I can go  
You're air that, air that I can breathe  
Cause you're my golden opportunity  
And oh, oh yes I would  
If I only could  
And you know I would  
And baby I, oh baby I  
I wish  
Come on now, don't you want to see?  
Just what a difference you've made in me  
I'll be waiting oh no matter what you say  
Cause I've been waiting for days, days, days  
And oh, oh yes I would  
If I only could  
And you know I would  
And baby I, oh baby I  
I wish  
I wish  
Oh, oh, oh  
Oh, oh, oh  
If the sky's gonna fall down, let it fall on me  
If you're gonna break down, you can break on me  
If the sky's gonna fall down, let it fall on me  
If it's gonna rain down, it can rain on me  
It can rain on me
