

# Coldplay, The World Turned Upside Down

X and Y

The land, sea, rivers, trees, the stars, the sky  
That and this  
We're part of a bigger plan  
Don't know what it is  
Don't know what it is

You and me

The land, sun, trees, the sky, the stars, the sea  
Three hundred and sixty five degrees  
I am a puzzle, you're the missing piece  
Hang on a minute, just a minute please  
I'll come  
And everything under the sun  
And everything under the sun

What is this feeling that I can't explain?  
And why am I never gonna sleep again?  
What is this thing I've never seen before?  
A little boy lost in a breaking storm  
Hide and sob, and away they fly  
To write your name in the summer sky  
Life has really only just begun  
Life that comes  
And everything under the sun

X is Y

The land, sea, rivers, trees, the stars, the sky  
Three hundred and sixty five degrees  
All of the surface and the underneath  
Searching your mellow and outsings your key, ah  
And everything under the sun  
And everything under the sun

What is this feeling that I can't explain?  
And why am I never gonna sleep again?  
What is this thing I've never seen before?  
A little boy lost in a breaking storm  
Hide and sob, and away they fly  
To write your name in the summer sky  
Life has really only just begun  
Life that comes  
And everything under the sun

And you don't know that you've been born  
Can't see the calm until the storm  
Can't tell your right side from your wrong  
Can't see the wave you're riding on
