

# Cole Deggs & The Lonesome, Do You Ever Think

I remember you, down by the river.  
We made love, in the dead of winter.  
And those crows and those fields, yeah we set them all on fire.  
There was nothing left, we were done. (No nothing left)

Do you ever think about me because I think about you all the time?  
Burn so bright, we tore all through the night .  
Sometimes when you dream do you think about me.

There was danger and wonder in your eyes.  
But you felt as free as the big blue sky.  
And sometimes when the cold night comes you blow into my mind.  
You want all my bones all like brand wine (yeah just like brandy wine)

Do you ever think about me because I think about you all the time?  
Burn so bright, we tore all through the night .  
Sometimes when you dream do you think about me.

There's a place where those young lovers are still together.  
We ran away (ran away) to a world past for ever.  
Do you ever think about me because I think about you all the time?  
Burn so bright, we tore all through the night .  
Sometimes when you dream do you think about me.
