

Cole Deggs & The Lonesome, I Got More

Justine it's only me out here standin' outside your door tonight
I took a chance and stopped and knocked when I saw your light
I know you think I'm drunk or I'm crazy
But I had to talk to you
To help you to see you don't know me
as well as you think I do

I got more in this heart of mine
way more than you'll ever find
in all those boys who hang around your door
More love than you've ever known
more strength than I've ever shown
Whatever it is you think your lookin' for, I got more

You look at me and see an old plow boy
Hey baby that's okay
Proud of my roots, my muddy boots
I grew up that way
Girl if you dig a little bit deeper
I think you'll be surprised
Give me some time, some of your time
I'll prove it here tonight

I got more in this heart of mine
way more than you'll ever find
in all those boys who hang around your door
More love than you've ever known
more strength than I've ever shown
Whatever it is you think your lookin' for, I got more

More time to spend with you
More faith to hold onto
And more life than you ever thought you've live
More fire, more soul, more tenderness than I show
Baby when you think that's all there is
I got more
Mmmmmm yeah
