

# Colin Hay, Water Song

this boy and girl were lovers  
came from different towns  
now they both live in the same one  
see each other round

he saw her at the rose bowl  
just the other day  
she showed him what she bought there  
and they struggled for what to say

they say we're made mostly of water  
so how come we can't find the sea?  
they say true love creeps up on you slowly  
oh how blind some people can be

this boy and girl had troubles  
lasted fifteen rounds  
both threw in the towel  
no one took the crown

and time it tends to pass us  
as we look the other way  
now he sells insurance  
and she's in a non-union play

oh how i wish we were like water  
we'd float on down into the sea  
if you find true love at your door knocking  
invite her in make her some tea

this boy and girl were lovers  
came from different towns  
now they both live in the same one  
see each other round

they say we're made mostly of water  
so how come we can't find the sea?  
they say true love creeps up on you slowly  
oh how blind some people can be
