Colin James, Get Carried Away

Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away

Better take back the glance that you shot across the room at me back before the lights were low
Cause that got me thinking bout not going home and that you might even have a better place to go
That smile and the curve of the lip under eyes that must have sank about a thousand ships
That shift of the hips to the side that does me in no matter how had I try
Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away

You move better then water over rocks or a breeze through the trees on the hottest of days
Everybody wants to feel what you deal and then wait for the chance. I guess some even pray
But I pray that the voice inside that says hey what's the harm in taking that for a ride?
Don't win out over rhyme and reason and I lose what I have for having something on the side
Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away

I realize that I gotta take a breath and start thinking about something thatll cool me down
When you get up from the chair and start dancing and I break out into a sweat as you shake it arou
I aint moving a muscle but ive run about a mile just fighting with myself and putting on this smile
Im leainin on the wall just to hold me up trying to get my mind to move to less dangerous stuff
Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away
Better watch what we do tonight
Or were gonna get carried away

So I pray that the voice inside that says what's the harm in taking that for a ride
Don't win out over rhyme and reason and I lose what I have for having something on the side
Better watch what we do tonight
Or were gonna get carried away
Or were gonna get carried away
Or were gonna get carried away
Or were gonna get carried away
