

# Colin James, Saviour

Saviour, saviour

Saviour, saviour

Gotta get to the river, gotta make it to the other side

Gotta get to the river, gotta make it to the other side

Take me to the river, help me get to the other side

Get me to the river, gonna make it to the other side

Fuck my saviour

Saviour, saviour

Saviour, saviour

When I'm breaking and I'm shaking and I'm looking for the riverside

Shaking on this faking, help me get to the other side

When I'm breaking and I'm shaking, trying to get to the other side

Take me to the river, come on, take me to the other side

Fuckin' saviour

Fuckin' saviour

Help me

Saviour, saviour

Saviour, saviour

I gotta get to the river, gotta make it to the other side

Nobody knows where the riverside will run

Somebody saw the saviour down by the river

Somebody tell me when the saviour comes

Where, where, where

Where is that saviour?

Where, where, beware

Where is that saviour?

Where is that saviour?

Saviour, saviour

Saviour, saviour

Fuckin', fuckin', saviour
