

Colin James, Something Good

Here's the reason
I try and make you feel better
I'm the reason
That you ever feel bad at all

At least I'm good at something
I just wish it was something good

Something good
Something good has gotta happen
And if I wait, it'll be too late
For something good

Take a picture
Of when we didnt know better
Take a look
How we looked so good together

What you dont know wont hurt you
You're hurtin now you know, you know

Something good
Something good has gotta happen
And if I wait, it'll be too late
For something good
Something good

At least I'm good at something
I just wish it was something good

Something good, Something good
Something good has gotta happen
And if I wait, it'll be too late
For something good
Something good
Something good
