

Collage, Tell Me Boy/Tell Me Girl

I remember the night I saw you
I knew that in there you were the one for me
Till eternity
You never told me you'd always love me
And those are the words I needed to hear you say
You want to hear me say that I'd be loving you forever and a day
You're just like a dream come true boy
You make me smile and fill my heart with joy
Let me tell you baby you're my dream come true girl
You're driving me crazy

Chorus:

Tell me boy that you'll never let me go
Tell me girl that you'll always love me so
Tell me boy you will be my shining light
Tell me girl that forever starts tonight

I remember the night I saw you
You said then in there that I was the one for you
Tell me was it true
You told me that you'd always love me
And those were the words you needed to hear me say
I never told you until it was too late
You're just like a dream come true boy
You make me smile and fill my heart with joy
Let me tell you baby you're my dream come true girl
You're driving me crazy

Chorus (2x)

You're just like a dream come true boy
You make me smile and fill my heart with joy
Let me tell you baby you're my dream come true girl
You're driving me crazy

Chorus (2x)
