

Collide, Razor Sharp

sliding into the vortex
holding on to core building walls
unstable seeping down through the crevice

i've been here before

creeping down through the crevice
i've seen there before
fragile these teeth are razor sharp
been through been through the vortex
dissolve and disintegrate

icicle the river is deep underneath
is all you see
draws you in from near or far
take me down through the crevice
i'm not here anymore
creeping down through
come in through the crevice
been through walls leaving it all
into been through the vortex
and i'm so insoluble feel unstable
in at the core searching
through for perspective what your looking
for these teeth are razor sharp
these teeth are razor sharp
razor sharp sharp
feel unstable feel unstable razor sharp fragile
