

# color blue, youth

In the swimming pool, feeling like Julie  
Visions of relief, fuming summer's coming back  
I know I'm waiting for something  
Running away from any place I'm at

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth away

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth

Lights are turning off just before midnight  
All my innocence washed away with the end of love  
I know I'm waiting for something  
Running away from any place I'm at

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth away

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth

At the end of the world I'd still be unsettled  
At the end of the night I'd still be looking for  
At the end of the world I'd still be unsettled  
At the end of the night I'd still be looking for another day  
for another day

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth away

Diamond sky, cover us when we are blue  
Tell me you'd stay even if it's not true  
City life in the night feels just like utopia  
I can't give my youth, I can't give my youth

I can't give my youth away  
I can't give my youth away
