

# Coma, When The Music Is A Flame

Music is a kind of a vehicle  
I travel into your mind  
We heads up into the same fire  
Emotion, that explosion  
Prepare the side of the heart  
Oh will you jump into the same fire?

Was it just an ending?  
Like each one in your life  
Oh will you jump into the same fire?

Now the music's over  
But it's not the final act  
So will you jump into the same fire?

Straight into the fire  
We never stop this temptation  
I'll set the flame of burning myself  
When the music is a flame  
When the music is a flame

Straight into the fire  
We never change this decision  
God will help me stay  
When the music is a flame  
When the music is a flame

Restless night ahead of us  
Brains are turned to ash  
So will you jump into the same fire?

You think it's your decision  
Let it burn you down  
So will you jump into the same fire?  
Fire!

Straight into the fire  
We never stop this temptation  
I'll set the flame of burning myself  
When the music is a flame  
When the music is a flame

Straight into the fire  
We never change this decision  
God will help me stay  
When the music is a flame  
When the music is a flame

Straight into the fire  
We never stop this temptation  
I'll set the flame of burning myself  
When the music is a flame  
When the music is a flame

Straight into the fire  
We never change this decision  
God will help me stay  
When the music is a flame  
When the music is a flame

Will you jump into the same fire? Fire  
Will you jump into the same fire? Fire
