

Commissioned, I Can't Live Without U

Verse:

So here, lately I've been thinking about You
And the way You make me feel inside
Since we met I've regretted not one moment
Feelings I would not hide
It's mighty nice to have You as my friend
My deepest thought with you I can share
I can't imagine what life would be like
If I looked up and You were not there

(Chorus)

I could live without the sun up in the sky
Live without the moon shining bright
One thing I can't do
I can't live without you

Verse:

I've been searching trying to find someone
Who could somehow compare with You
But as You see, I've come up with nothing
Lord, who could compare with You?
So when I search and I'm right back where I started
It comes to me as no big surprise, oh no
I took some time to think about our situation
It only took one minute and I finally realized

(Chorus)

I could live without no food to eat
Live and be homeless on the streets
One thing I can't do
I can't live without you
I could live without fine clothes to wear
Live without millions to spare
One thing I can't do
I can't live without you

I can't live
I can't live, Lord
I can't live
I can't live without You
I can't live
I can't live, Lord
I can't live
I can't live without You
I can't live...

You are the only one I've been searching for
You are the only one and I just cannot live without You.
