

# Commissioned, Love Is The Way

Verse:

You say you're upset, hey  
but you're sitting in the sideline  
Watching what the world is gonna do  
I think it's about time  
To give love a chance  
to open up the way  
Really get involved  
not just come, but say it

Chorus:

Love is the way  
To bring a brand new day  
He knows just what to say  
and He eases the pain  
I know

Love is the key  
It's faith and charity  
He knows the recipe  
for the healing remedy

Verse:

My situation's critical  
A true state of emergency  
They're saying that it's terminal  
But here's a prescription  
Love, take a dose every day  
And make it generous  
Take more than you think you need  
There's always enough, drink up

Bridge:

Love has no limits  
throughout this frustration  
Love will hang in there  
For the duration  
Love is the serum  
To live the life

(Chorus)
