

# Commissioned, More Than I (Interlude)

If I can take away your sorrow I would cast it to the wind  
If I could say its okay you would never cry again  
If I could wave my hand I would wave away your fears  
You would never have to worry as long as I am here  
If I could take my brush I would Paint the perfect day  
If I could master all my creativity I would say the perfect phrase

chorus

The words that I would say would only go so far  
The're just ordinary words from an ordinary heart  
Just an ordinary love from an ordinary guy  
But I know someone who's greater  
I know someone who loves you  
More than I

If I had my way I would ride through the night  
like a prince in shinning armour I would love to save the fight  
And I would love to be your hero Who would never ever fall  
I would be the one to rescue you I would be the one you call  
But there is one who is much more than I can be  
And if you put your faith in Him you will have security  
chorus
