

Complete Control, Image

you act like you do what you want
you're the first one to give in
and when they talk, then they try to yell
but we'll never give in

new voices that wont be heard
have nothing to say
they're scared to individualize
their minds in these new ways

few people with many faces
you just cant trust
well they'll try, and try again
they wont beat us

(Chorus)
your image...is shit(x4)
