

# Conjure One, Manic Star

One day, yes, one day less to live  
I want you to be my sedative  
Sometimes when I drive my car  
I feel trapped like a bee inside a jar

Grains of sand is all we are  
Crawling on our manic star  
One tiny person  
In one shiny car  
Spinning on our manic star

Time doesn't stop for anyone  
It doesn't matter what you've done  
I want to lose myself in you  
Are you afraid of dying too?

Grains of sand is all we are  
Crawling on our manic star  
One tiny person  
In one shiny car  
Calling from our manic star

Let's love like there is no tomorrow  
Shelter each other from the pain and sorrow

Grains of sand is all we are  
Crawling on our manic star  
One tiny person  
In one shiny car

Don't know how I got this scar  
Crawling on our manic star  
I'm all right, at least so far  
Hanging on our manic star

Spinning on our manic star  
Calling from our manic star
