

# Connie Smith, Come Along And Walk With Me

If you're weary from climbin' mountains and you've been troubled with heavy rain  
If you're drinkin' from a fountain that never cleanses your thirsty dream  
Then come along and walk with me let's find a keeper of heaven's keys  
And when we find him he'll set us free oh come along and walk with me

For every question and every wonder oh there's an answer that satisfies  
When your wisdom grows weak from hunger  
That's when your soul needs a bread of life  
Oh come along and walk with me...

[ steel - guitar ]

All you sisters and all you brothers if we're the children of Abraham  
Then let us prove it by telling others about the shepherd who loves his lamb  
And come along and walk with me...  
Oh come along and walk with me...
