

Connie Smith, Gone Too Far

Gone too far since that first tender kiss I never dreamed that it would lead to this
Gone too far to ever let you go
Would I turn back if I could well maybe I should but it's gone too far
Gone too far since you first held my hand gone too far it's not the way I planned
Gone too far for now I love you so
I could say we're through but if it still be you cause it's gone too far
Everyday I need you just a little more
And every night I'm one dream deeper than before
Because it's gone too far this love I have is real
And nothing now can change the way I feel
Right or wrong I'm yours with all my heart
Would I turn back if I could well maybe I should but it's gone too far
Would I turn back if I could well maybe I should but it's gone too far
