

Connor Price, Too Bad

I saw the signs but I ignored them all, yeah
Way too blinded by euphoria
I couldn't see I had the shorter straw
Red flags wave high
Guess I must be color blind, yeah

People tried to warn me 'bout you, but I wouldn't leave you
Told me you and him were only friends and I believed you
Thinking it was all inside my head until I opened up the thread
I saw the pictures in the text, I couldn't breathe

You told me that you could see this
Here forever, I guess that's a lie
'Cause the same lips telling me that
I saw kissing him back

I said too bad if you feeling lost I'm not around
Too bad if you wanna talk I'm not in town
Too bad if you think you want a second chance
I'm not your back up plan, no I'm not your second man
I said too bad if you feeling lost I'm not around
Too bad if you wanna talk I'm not in town
Too bad if you think you want a second chance
I am not your back up plan, no I'm not your second man, nah

Gave you my heart, I thought it was safe
Broke it apart and then you threw it away
And I just hate that there's a piece I'll never get back
You'll have it forever, I'll accept that
Sixteen missed calls, heard that you lookin'
You had a clean shot, point blank, saw it and took it
We had a fall out, boy, how you cock it and pull it
Told my dad about you, funny he said I dodged a bullet

You told me that you could see this
Here forever, I guess that's a lie
Cause the same lips telling me that
I saw kissing him back

I said too bad if you feeling lost I'm not around
Too bad if you wanna talk I'm not in town
Too bad if you think you want a second chance
I'm not your back up plan, no I'm not your second man
I said too bad if you feeling lost I'm not around
I said too bad if you wanna talk I'm not in town
I said too bad if you think you want a second chance
I am not your back up plan, no I'm not your second man, nah
