

Conor Maynard, Royalty

If I had the money, let me tell you how it be
I'll take your van in country, everyone will ball on me
Sit up in my palace and baby you would be my queen
With one ship together, just wait and see
We'll be royalty, we'll be royalty
I know, I know, I know

I know we broke right now
But girl I guarantee that I'mma work this out
See I got this bam, all you need right now it's to understand
Hips too real, fast on me now
Girl don't quit on me no,
If I gotta beg you, still no big deal
Hold me back down

If I had the money, let me tell you how it be
I'll take your van in country, everyone will ball on me
Sit up in my palace and baby you would be my queen
With one ship together, just wait and see
We'll be royalty, we'll be royalty
I know, I know, I know

So would you come for me
If I gotta take out all the enemies
Cuz I might get ugly
Anything that you don't wanna see and hear
You bout to ball and then stop
This fantasy cars, girl don't quit on me now
I gotta grab and still, no big deal
This is how we doin' on

If I had the money, let me tell you how it be
I'll take your van in country, everyone will ball on me
Sit up in my palace and baby you would be my queen
With one ship together, just wait and see
We'll be royalty, we'll be royalty
I know, I know, I know

Awu, We the king baby
We'll be sittin' on a throne
We'll be sittin' on a throne
You and me all alone
Ain't no stoppin' us now

We'll be royalty
So who do tricks?
Girl it's right or die
We'll be royalty
So back and stop
And take this to the sky
We'll be royalty
So who do tricks?
Girl it's right or die
We'll be royalty
So back and stop
And take this to the sky
