

# Conquest, Winter Has Come

Winter has come and this snow will be forever  
Clouds above, and I'm alone  
But every time I will fly with wind together  
I'll forget who I am  
Wings of light put me up to stars  
And I see they are crying

So many years whisper tells me what to do  
I was ray of the moonlight  
But in my dreams shadows bring me back to you  
Dreams disappears pain is staying here...  
Wings of light put me up lo stars  
And I see - they are crying

[Chorus:]  
Take me to the heaven and never let me go  
Let me see the Angels that loved me so  
Clouds will be dispersed to show me the way  
To my soul

[Solo: W. Angel]  
[Chorus.]
