Woohoo!

Don't do what I did  
Don't do what I have done  
Turning the world against ya  
All in the name of having fun  
You've got yourself to blame  
You'll only feel ashamed  
Like I do  
Don't do what I did.

Don't do what I did  
Don't break a beating heart  
Don't try to rend asunder  
What no man should tear apart  
You'll always feel so bad  
You'll only wish you hadn't  
Done like I did  
Don't do what I have done.

All the love I ever had  
Only ever wanted bad  
Bad enough to wind up dead  
All the moves I might've made  
All the best plans ever laid  
Only wound up shot instead.

Don't do what I did  
You break your own heart first  
If you're miserable now, just wait  
It only hurts all the worse  
Like a presence that won't leave  
It makes it hard to breathe  
Don't do what I have done.

This is not a helping hand  
I'm not one to understand  
I'm just pointing out the time to you  
How much more can one soul take  
What's the measure of mistake  
When all you ever make is mine.

Once you're a loser  
All you can learn to do is  
Don't do what I did  
And pick on a love that's true  
That was the big mistake  
The one that I had to make  
Don't do what I did  
Don't do what I did  
Don't do what I have done.
