

# Conway Deborah, Consider This

Deborah Conway

I've been informed there is a god and he'll save us

I've been on my knees praying please

It's useless

The lights are on but no one's home that I see

I need a sign a burning bush will do nicely

Consider this when you are leaving

Consider this and wave goodbye

Consider why we hang on

Make no mistake the only cure for living

Is to shuffle off this mortal coil believing

The heavenly gates will open wide in welcome

And you'll look good in white playing the harp

Son you'll kill 'em

'Cos it would be so comforting to know we're not alone here

I'd believe the gorgeous lies and follow him to somewhere

Anything makes sense when you are staring into nowhere

Take me take me I'll be yours for ever and ever

Now we're alone if I state my case you'll listen

This life's too short no time for false convictions

I've been confused and I've been disturbed but I now know

Something of love and I love you

Baby don't go
