

# Conway Twitty, I Did The Best I Could (With What I Had)

(And I did the best I could with what I had)  
When I first met you I promised you the world  
And it was all because you were my favorite girl  
Pretty things like diamond rings and all the things you never had  
But I did the best I could with what I had  
I know you won't need a mansion on the hill a big fine car a schauffer at the wheel  
But time passed on and things went wrong and all you ever got was said  
But I did the best I could with what I had  
And all I had was all the love in the world for one girl  
And the promise to try hard someday to get ahead  
But the promises I made are broken and betrayed  
But I did the best I could with what I had yes I did the best I could with what I had
