

Conway Twitty, Judge Of Hearts

Please please judge of hearts please don't let me lose
Each time I played the game of love I get left with the blues
I've tried oh how I've tried but I can't make her see
Judge of hearts make her understand what she means to me

Don't sentence me to live my life in this prison of broken hearts
Please help me to win in this game of love
Cause I could never ever make another start
Judge of hearts said you'll make her mind I swear to be true
I said all that I can say now it's all up to you
Don't sentence me...
