

# Conway Twitty, Only Way Around It Is Right Thru

(Bobby Harden)

I no longer can find love at home  
Like the love when we're all alone  
I keep searchin' and searchin' but it just isn't there  
The answer is here in your arms.

The only way around it is right thru the middle  
So why don't we tell them tonight  
The only way around it is right thru the middle  
We'll never break up so let's make up our minds.

A love light we shared shouldn't hide  
When both of us have lost it at home  
Neither one of us was looking when we came each other's way  
It's not our fault it just happened that's all.

The only way around it is right thru the middle  
So why don't we tell them tonight  
The only way around it is right thru the middle  
We'll never break up so let's make up our minds...
