

Conway Twitty, Some Kind Of A Woman

He's tempted by the devil to give up the love he knows he's got at home
And temptation sometimes leads the best of men to want to stay out all night long
And the way the world is turnin' you can find anything you wanna see
But I know you turn it down turn around and then come on home to me

But I've got me some kind of woman and she loves me like nobody can
Yes I've got me some kind of a woman and that's why I go on home to be her man
[guitar]

He lets me know that I'm the only girl in the world he wants to hold
And I can tell by the way he touches me that his love will not grow cold
So why should he go looking for another when I'm all he'll ever need
I'm satisfied to be with him and his love sure does take good care of me
But I've got me some kind of woman...
