

Corinne Bailey Rae, Been To The Moon

When we first collide
Time wasn't right
I show you the sign
You disappearing into the shade
Now you've back again
Tell me
You do
You do!

Don't you recognize a fellow ...
When we've been before
Moon was elliptical
When you've moved toward me
Might me lose my cool
And it's cruel

I've been to the Moon
Don't tempt me
I am where you are
God, help me
...
