

# Corrosion Of Conformity, Votin' With A Bullet

The number in nations  
The God in their hearts  
The justice in swine  
The devil in me.....vote !

This long hand that breaks our backs  
Still casting shadows on all that we see  
Unjustified...mercy killing is just a feeling  
To keep our numbers from being free

Prison for praise is not worth thinking  
Sin is still in and our ballots are shrinking  
So unleash the dogs - the only solution  
Forgive and forget, f\*\*k no  
I'm talking about a revolution

The prophet man's got a needle in his hand  
Draws his dreams from your soul - bleeding minds into sand  
The year of the fear has arrived decades too late  
And our right to stand and fight is now solely sealed in fate

Prison for praise is not worth thinking  
Sin is still in and our ballots are shrinking

So unleash the dogs - the only solution  
Forgive and forget, f\*\*k no  
I'm talking about a revolution

One last chance mission with a vision  
'Cos our lives are just cards I their stack  
Our time is short but theirs is shorter  
How much longer can they hold us back

Prison for praise - the obvious answer  
Once had power mad - living disaster  
Don't f\*\*k with me 'cos I'm on a freedom train  
That bears no name - this time  
I'm voting with a bullet

This view they once knew made our nooses too tight  
This justice in swine  
This devil in God  
So God bless my soul - I've got total control  
And the crosshairs lined up dead in my sight  
I'm voting with a bullet
