

Courtney Love, Northern Star

And I cry and no one can hear
Inhale
The blinded eyes can that see
The chaos
Bring the pitiful to me
Even though I'm wide-awake, I will
& blackest night & I wait for you

It's cold in here there's no one left
& I wait for you
& nothing stops it happening
& I knew, I'd cherish all my misery alone
And I wait staring at the northern star
I'm afraid it won't lead me anywhere
He's so cold he will ruin the world tonight
All the angels kneel into the northern lights
Kneel into the frozen lights
And they paid, I cry and cry for you
Chosts that haunt you with their sorrow
I cried 'cause you were doomed
Praying to the wound that swallows
All thats cold and cruel
Can you see the trees, charity, and gratitude
They run to the pines

It's black in heere blot out the sun
& run to the pines
Our misery runs wild and free
& I knew, the fire and the ashes of his grace
And I wait staring at the northern star
I'm afriad it won't lead you very far
He's so cold he will win the world tonight
All the angels kneel into the frozen lights
Feel their hearts they're cold and white
And I want you
And blessed are the broken
And I beg you
No loneliness, no misery is worth you
Oh tear his heart out cold as ice it's mine
And I wait praying to the northern star
I'm afraid it won't lead you anywhere
He's so cold raining on the world tonight
All the angels kneeling to the northern lights
And I pray begging to the northern star
I'm afraid it won't lead you anywhere
He's so cold he will rule the world tonight
All the angels kneeling to the northern lights
Kneeling to the frozen lights
Feel their hearts they're cold as ice..
