

# Courtney Love, Northern Star

And I cry and no one can hear  
Inhale  
The blinded eyes can that see  
The chaos  
Bring the pitiful to me  
Even though I'm wide-awake, I will  
& blackest night & I wait for you

It's cold in here there's no one left  
& I wait for you  
& nothing stops it happening  
& I knew, I'd cherish all my misery alone  
And I wait staring at the northern star  
I'm afraid it won't lead me anywhere  
He's so cold he will ruin the world tonight  
All the angels kneel into the northern lights  
Kneel into the frozen lights  
And they paid, I cry and cry for you  
Chosts that haunt you with their sorrow  
I cried 'cause you were doomed  
Praying to the wound that swallows  
All that's cold and cruel  
Can you see the trees, charity, and gratitude  
They run to the pines

It's black in here blot out the sun  
& run to the pines  
Our misery runs wild and free  
& I knew, the fire and the ashes of his grace  
And I wait staring at the northern star  
I'm afraid it won't lead you very far  
He's so cold he will win the world tonight  
All the angels kneel into the frozen lights  
Feel their hearts they're cold and white  
And I want you  
And blessed are the broken  
And I beg you  
No loneliness, no misery is worth you  
Oh tear his heart out cold as ice it's mine  
And I wait praying to the northern star  
I'm afraid it won't lead you anywhere  
He's so cold raining on the world tonight  
All the angels kneeling to the northern lights  
And I pray begging to the northern star  
I'm afraid it won't lead you anywhere  
He's so cold he will rule the world tonight  
All the angels kneeling to the northern lights  
Kneeling to the frozen lights  
Feel their hearts they're cold as ice..
