

# Cover Drive, Sparks

Happy to see you setting me off like sparks  
You ignite all the colours inside my heart  
On the doorstep like we'd never been apart  
Hope you know that I'm happy to see you

It's just another night  
The boys are getting higher  
But baby in my head  
I'm nailing you instead  
It's just another night  
Under the strobe lights  
Can't hear what I'm dancing to  
Just wanna be you

Ohh, chips die, and I'm ready to go  
On my mind I can't wait anymore

Happy to see you setting me off like sparks  
You ignite all the colours inside my heart  
On the doorstep like we'd never been apart  
Hope you know that I'm happy to see you

Them girls put on a show  
But they will never know  
What makes you beautiful  
I watch them come and go  
Them boys got all the talk  
But they don't a lie

You know my every thought  
That's why I make them walk

Ohh, chips die, and I'm ready to go  
On my mind I can't wait anymore

Happy to see you setting me off like sparks  
You ignite all the colours inside my heart  
On the doorstep like we'd never been apart  
Hope you know that I'm happy to see you

Nothing needed to say  
We got nothing to prove  
No world dust, and later, no winner with you  
We got no games to play  
So we got no lose  
The world doesn't matter  
You're here and...

Happy to see you setting me off like sparks  
You ignite all the colours inside my heart  
On the doorstep like we'd never been apart  
Hope you know that I'm happy to see you

Happy to see you setting me off like sparks  
You ignite all the colours inside my heart  
On the doorstep like we'd never been apart  
Hope you know that I'm happy to see you
