

Crack The Sky, Skindiver

She's the queen of the submarines
I see her picture in the magazines
I'd like to put her in a situation
Where she can live up to her reputation

She got famous doing tricks underwater
She'll do the scuba till your boat won't go
Skindiver, Skindiver, won't you dive on me,
Won't you dive on me tonight

I see her movies at the All-Nite show
Imagine growing in the front row
I think about her, I dream about her
She's all I need when I'm all alone
Oh yeah, she's my kinda girl
