

Crack The Sky, The Stealer

She got the hot light shining on you
The kids are sleeping now she's making her move
She gets dirty from the Frederick's store
You fall asleep because you've seen it before
Stealer, I will take her away
Stealer, I take her far away
Stealer, I will take her away from you

Don't like to go to downtown bars
Them single ladies make me work too hard
I watch the suburbs and the laundramats
I watch the husbands as I sneak out the back

Stealer, I will take her away
Stealer, I take her far away
Stealer, I will take her away from you
