

# Cradle of Filth, A Crescendo Of Passion Bleeding

A crescendo of passion bleeding  
Spells lay daggers before me  
passion speaks in grue vehement stabs  
Trance my eyes, fix my focus to pain  
the tumour grows until the enemy is slain  
(Gut The Church)  
Slightless storm  
knee-deep in hate I seeth  
my purpose here has woken to breath  
Total war on the brethren of Men  
millions regardless  
dying by my hand  
A Black Age Of Fire  
brief in its vicious eloquence  
removing the dross  
love will arise from the ashes of your loss  
Then and only then  
will the pleasure of Eden be mine  
and the sinews of life itself will be tied  
in the very veins of my bloodline  
And their tears taste like wine...  
I will rule as a king  
and the Goddess will sit as my guiding Queen  
in the glory of the earth our crowns are studded  
with the jewels of blasphemy  
The blood is the life!  
I seek to evoke a new order in Man  
a flood of compulsion to resurrect Khem  
the lion is vexed to uproot and descend  
Chaos my steed in the thick, clinging dust  
tempering weapons of criminal lust  
I hold sway from the East to fulfill prophecies  
thinning the cause as fresh cells to disease  
The blood is the life!  
Even the moon will not lend thee her light  
the darkness serves will to snuff out human life  
that I might reclaim the world as my right  
I kill without scruple or silent regret  
in haunts of the sinister lunar aspect  
for I am the pleasure that comes from your pain  
tiny red miracles falling like...rain  
The incessant pall of death surrounds me  
but this is not the part of me that wishes to breed  
there will be no dread thereafter  
the mysteries I reveal unto thee  
I stir the hearts of the wisest  
by the fools I will always be feared  
my Kingdom feeds off their slaughter...  
A crescendo of passion bleeding...  
on the pale reflection of dawn  
Devour The Sun  
"The Great Man of his time  
is He who expresses  
the Will of his time;  
who tells his time what it wills;  
and who carries it out"  
Hegel
