

# Craig David, DNA (Galantis)

There's something in your DNA, cos heaven did it right,  
Baby when you were made, you hit it different,  
I feel some type of way, I'll never be, never be the same,  
There's something in your DNA NA, cos heaven did it right,  
Baby when  
you were made, you hit it different,  
I feel some type of way, I'll never be, never be the same,  
There's something in your DNA  
Yeah,  
When you close to me,  
We can't help but explore, you touch every part of me (yeah),  
And when we kissed, you left me begging  
for more (more),  
I just want more  
You're in my bones, you're in my veins,  
It feel like home, when you're holding me,  
You're in my soul, and I can't explain,  
You take me to another place  
There's something in your DNA, cos heaven did it right,  
Baby when y  
ou were made, you hit it different,  
I feel some type of way, I'll never be, never be the same,  
There's something in your DNA NA, cos heaven did it right,  
Baby when you were made, you hit it different,  
I feel some type of way, I'll never be, never be the sa  
me,  
There's something in your DNA  
Yeah  
When I saw you, it felt like we met before,  
In another life, another time, I know that for sure,  
Let's not pretend this ain't, what we been waiting for (for),  
What we waited for  
You're in my bones, you're in my  
veins,  
It feel like home, when you're holding me,  
You're in my soul, and I can't explain,  
You take me to another place  
There's something in your DNA, cos heaven did it right,  
Baby when you with me, you hit it different,  
I feel some type of way, I'll never  
be, never be the same,  
There's something in your DNA NA, cos heaven did it right,  
Baby when you with me, you hit it different,  
I feel some type of way, I'll never be, never be the same,  
There's something in your DNA  
Oh DNA
