

Craig David, Four Times A Lady (What's Your Fla

Come on baby,
Well I got a little story,
Hey yeh,
Tell me are you with me,
Tell me are you with me,
Sing it,
Hey yeh,
Sing it sing it for me,
Hey yeh owhhh,
Tell me tell me baby,
All up in the crib on a Friday night,
Friday night,
Me and my guys looking oh so tight,
Oh so tight,
Bounce from the crib to the car,
From the car all the way to the bar,
Gotta wonder where you are,
Always loved you from afar,
Hope that,
Wait a minute there she is all up at the back,
Girl I really wanna come and get with you tonight,
Alright alright,
Owh girl you look so fine,
And I want you to be mine,
Well I had nothing to lose,
Thought I'd make my move,
Getting close to you is all I wanna do oh,
I can remember so clearly,
Trying to catch your eye,
You didn't notice me,
So Maybe,
Nows as good a time as ever,
Yeh,
So I asked her if she'd mind,
Could we share a little time,
Told me that would be just fine,
Couldn't believe I had her by my side,
Who'd ever thought she'd end up in my ride,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady,
Spinning around till the morning light,
Gonna be making sweet with her all through the night,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady,
Now she calls me up on the phone nearly everynight,
Just to make sure that i'm not feeling lonely,
Yeh,
She'd even come around telling me how she was feeling uptight,
Yeh,
Just so she could hold me,
So I said that take it all in for a minute,
She's the kinda girl you wanna have around who's all up in it,
Shes my everything,
Takes good care of me,
And she's all the things a girl's supposed to be,
Yeh,
I can't imagine living without you,
I love you,
Yes I do,
Never knew my dreams would all come true,
When I stopped to talk to you,
Saw you out with your girlfriends,

Thought she's so damn fine,
How I wish that she could be mine,
But everytime I saw her,
She'd always pass me by,
Never could catch her eye,
Couldn't believe I had her by my side,
Who'd ever thought she'd end up in my ride,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady,
Spinning around till the morning light,
Gonna be making sweet love with her all through the night,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady,
Now I must admit,
Since you came into my life,
Like a fairytale you made my world complete,
Ohhhh baby,
Well I feel you baby,
And the things you do,
Cos your everything more than a girls supposed to be,
And I really mean it baby,
And I want you to know,
Couldn't believe I had her by my side,
Who'd ever thought she'd end up in my ride,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady,
Spinning around till the morning light,
Gonna be making sweet love with her all through the night,
Straight to the top,
Girl you really make me hot,
Cos your just four times a lady (x2)
Your four times a lady,
Yes your are baby,
Your four,
Your four times a lady,
Oh yeh babe,
Oh yeh eh yehh,
When you said to me inside you felt the same
