

Craig David, My Love Don't Stop

I've been knowin you
You've been knowin me
But i aint took the chance to
Tell you what i want
Girl its been too long
And i can't go on
Can't be actin like i dont care
Cause i rolled with you
I grew up with you
My momma used to sit you
When your moms werent home
Always friends with you
Never stepped to you
But now its time that i
Start makin love to you

Time passes by
For more than a lifetime
I want to be yours girl
I would give up my life
To spend just one night with you
Cause my love don't stop
I can't lie you bring out the best in me
I gots to be yours girl
I would give up my life
Theres nothin that i won't do
Cause my love don't stop

Theres a part of me that wants us to be
Just the way we are
So we don't mess things up
But its killin me
Cause the rest of me
Wants to feel your body baby
Wants to tear it up
I'll do some things to you
No one else can do
Cause maybe im the one
To make you feel real good
Bein friends is cool
But now its time that i
Start makin love to you

[CHORUS]

Girl its been so long
I know it can't be wrong
Cause theres never been
No one but you
And girl there never will
You won't go back no more
Theres no one disguised
Can't be yours despite
Girl i've watched you
Get hurt too many times
But i can make you
All i can do
To show you how im gonna love you
