

# Craig David, My Love Don't Stop

I've been knowin you  
You've been knowin me  
But i aint took the chance to  
Tell you what i want  
Girl its been too long  
And i can't go on  
Can't be actin like i dont care  
Cause i rolled with you  
I grew up with you  
My momma used to sit you  
When your moms werent home  
Always friends with you  
Never stepped to you  
But now its time that i  
Start makin love to you

Time passes by  
For more than a lifetime  
I want to be yours girl  
I would give up my life  
To spend just one night with you  
Cause my love don't stop  
I can't lie you bring out the best in me  
I gots to be yours girl  
I would give up my life  
Theres nothin that i won't do  
Cause my love don't stop

Theres a part of me that wants us to be  
Just the way we are  
So we don't mess things up  
But its killin me  
Cause the rest of me  
Wants to feel your body baby  
Wants to tear it up  
I'll do some things to you  
No one else can do  
Cause maybe im the one  
To make you feel real good  
Bein friends is cool  
But now its time that i  
Start makin love to you

[CHORUS]

Girl its been so long  
I know it can't be wrong  
Cause theres never been  
No one but you  
And girl there never will  
You won't go back no more  
Theres no one disguised  
Can't be yours despite  
Girl i've watched you  
Get hurt too many times  
But i can make you  
All i can do  
To show you how im gonna love you
