

Crash Test Dummies, Come Down To The Sinkhole

Come down to the sinkhole
Where the mud is thick and deep
Bring your special poison
The one that makes you go to sleep

Go and pack your bag
Make sure you lock the door
Don't think about it very much
It's better to ignore

Bring a stick for wild dogs
That hunt in packs at night
Bring firepower, if you can
You might find that you have to fight

Go and pack your bag
Make sure you lock the door
Don't think about it very much
It's better to ignore

Lay down in the tall grass
Next to the sycamores
Think of those who've come and gone
Slaughtered in the many wars

Go and pack your bag
Make sure you lock the door
Don't think about it very much
It's better to ignore

Look out at the ocean
To the waters dark and deep
Bring your special poison
The one that makes you go to sleep

Go and pack your bag
Make sure you lock the door
Don't think about it very much
It's better to ignore
