

CrazyTown, Toxic

Catch a fire, Fire it up
Corrupt stirring it up
It's burning hot, drifting
Hitting every slot
With a drop kick, it's toxic
Trouble, like your girl in a mosh pit
I've lost it
and that the only way that we rock shit
Banging heads and ripping threads
If I wasn't rocking shows
I'd be better off dead
With a one two
One word can destroy your whole crew
And that's toxic

Toxic, loud and obnoxious
Crazy Town's toxic
With that, rock your block Shit
Toxic, popping more lip
We love to talk shit
Rocking you block with
that straight out the block shit, Toxic

A buddha, ballistic
Blacklisted twist of faith
My vocal's fatal
As naughty block concoctions rock your cradle
I thought I wait 'til the timing was right
To ingite
Cause people like me we only come out at night
I rock the main line and
party with fine bitches
Which is a dirty job
But somebody's got to do it So,
who the crew with?

More has than vivid
Lyrics explicit
So f**k the critics
We leave them hanging like INXS.

Toxic, loud and obnoxious
Crazy Town's toxic
With that, rock your block Shit
Toxic, popping more lip
We love to talk shit
Rocking you block with
that straight out the block shit, Toxic

Toxic thresholds of Colombian gold
You can't roll how we roll
We possess your soul and push the panic
Is it godly or satanic?
Toxic or organic?
Manic minds rekindle or frantic
Just the way we planned it
See we be stomping around
the planet and we stand alone
We infiltrate your chromosomes
No clone our
DNA has got a strain of its own and it's Toxic .

Toxic, loud and obnoxious

Crazy Town's toxic
With that, rock your
block Shit
Toxic, popping more lip
We love to talk shit
Rocking you block with
that straight out the block shit, Toxic
