

# Crematory, Solitary Psycho

I lived in a nightmare just good and said no  
gone with a feeling the made us so cold  
while getting the madness it's crawling in us  
solitary psycho a sickening badness

Solitary psycho  
no way out fearing yourself  
forever your're banned  
Solitary psycho  
counting the days healing myself  
forever your're damned

Loose one's mind and wreck one's brain  
lifethoughts are foreign to our nature  
slow inner decay no reason left  
solitary psycho a sickening badness

Has it been the right way and even allowed  
knowing it keeps on progressing  
all those reflections thinking about  
dogma never miscarries
