

# Crematory, The Loss

Day for day, year for year  
I'm waiting to sence you once again  
Where were you  
When i longed for you  
Where were you  
When my inner being died  
Where were you  
where

I see smoke, patches of fog  
Darkness clothes me well  
Where were you all the years  
Where were your signs  
The search for you is the loss of  
you

Where were you  
When i longed for you  
Where were you  
When my inner being died  
Where were you  
When i longed for you  
Where were you  
When my inner being died

I am smoke and patch of fog  
Darkness does not see me  
I was your own sign  
That i was searching for all the  
years  
That i was searching for all the  
years

Where were you  
When i longed for you  
Where were you  
When my inner being died  
Where were you  
When i longed for you  
Where were you  
When my inner being died

The search for you is the loss of  
you  
The search for you is the loss of  
you  
The search for you is the loss of  
you  
The search for you is the loss of  
you
