

# Crimson Glory, Love And Dreams

You are the shining, I am the star  
You are the burning, I am the fire  
Burning bright for all to see  
Forever together I know we'll be  
Take my hand lady walk with me  
Through these fields of love and dreams  
You and I were meant to be together  
Two hearts will beat as one forever  
You and I were meant to be  
Forever together I know we'll be  
Spread your wings lady fly with me  
Across the sky of love and dreams  
Your love is like the warmth of the fire  
Fills my heart with a burning desire  
To give my love to you  
You are my dream, you are my lady  
You are the only one in my life  
You are my heaven, you are my baby  
You are the shining light  
You are the sun  
Shine on, shine on me  
Shine on, shine on me  
Two ships passing in the night  
Have found each other in the light  
Close your eyes now drift away with me  
Across the sea of love and dreams  
You are my dream, you are my lady  
You are the only one in my life  
You are my heaven, you are my baby  
You are the shining light  
You are the sun  
Shine on, shine on me  
Shine on, shine on me
