

# Crosby, Stills & Nash, It Won't Go Away

Don't you get tired  
Of listening to the cover up  
Sounds like a broken old record  
When the needle gets stuck

You got your media honeys  
Using their TV voice  
Tellin' you what you done decided  
As if you had any choice

And didn't they cry  
And worry 'bout people of color  
And didn't they mostly turn away  
Keep us afraid of each other

And you know it's a lie  
It ain't about people of color  
The American Dream betrayed  
And all of us feel the same rage

And it won't go away

Isn't it strange  
Ain't it a mystery  
How did he get it in his head  
Somehow he could speak for me

Hey, if what he's been a' saying  
Is actually what he believes  
Then one of us surely is a fool  
And you know that he thinks that it's me

And didn't they cry  
And worry 'bout people of color  
And didn't they mostly turn away  
Keep us afraid of each other

And you know it's a lie  
It ain't about people of color  
The American Dream betrayed  
And all of us feel the same rage

And it won't go away

Somebody wants us divided  
Someone of evil intent  
Trying to confuse and control  
The minds of the innocent

And isn't it time  
Good people have got to speak up  
And you'll know exactly what to say  
When you've finally had enough

Don't you go try  
And blame it on people of color  
And don't you dare turn away  
Keep us afraid of each other

Cause you know it's a lie  
It ain't about people of color  
The American Dream betrayed  
And all of us feel the same rage

And it won't go away  
Won't go away  
Won't go away  
Won't go away
